

World Leaders Innovation Programme (6-Month)

By Dr & Professor Kuldipak Marwaha

KM International Consulting Ltd – The World Leaders Project

1. Programme Overview

The World Leaders Innovation Programme (WLIP) is a 6-month executive education experience designed to transform leaders, executives, and entrepreneurs into global innovation architects — capable of leading creativity, reinvention, and transformation across organisations and industries.

Developed and delivered by Dr & Professor Kuldipak Marwaha and KM International Consulting Ltd, this programme bridges the science of innovation with the art of leadership fulfilment — empowering participants to envision, design, and implement innovation that shapes the future of business and society.

The World Leaders Innovation Programme redefines innovation not as a department or initiative — but as a way of thinking, leading, and being.

2. Programme Purpose

- Develop innovation-driven leaders capable of driving transformation at scale.
- Equip participants with practical frameworks to design and implement innovation strategies.
- Build cross-sector understanding of technology, creativity, and organisational reinvention.
- Inspire human-centred, ethical, and sustainable innovation.
- Integrate innovation with leadership energy, fulfilment, and purpose.

3. Who Should Attend

- C-Suite Executives and Board Members
- Innovation Directors and Transformation Leaders
- Entrepreneurs and Business Founders
- Research & Development Leaders
- Consultants and Advisors in Technology, Leadership, or Strategy
- Policy Makers and Change Agents shaping national or global innovation ecosystems

4. Programme Philosophy

The World Leaders Innovation Framework, created by Dr & Professor Kuldipak Marwaha, is based on three innovation pillars:

1. Mindset Innovation – The psychology and energy of innovative leadership.
2. Strategic Innovation – Creating new systems, structures, and business models.
3. Cultural Innovation – Building teams and environments that sustain creativity.

This integrated approach ensures leaders master innovation not only as a process — but as a personal and organisational transformation capability.

5. Programme Design and Timeline (6-Month Model)

Month	Core Theme	Key Focus
1	Foundations of Innovative Leadership	Redefining innovation, creativity, and leadership; developing the innovation mindset.
2	Design Thinking & Systems Innovation	Learn design thinking, creative problem-solving, and system-wide innovation tools.
3	Technology, AI, and Digital Reinvention	Explore how emerging technologies, AI, and data are reshaping industries and organisations.
4	Organisational Innovation & Cultural Transformation	Build cultures that promote experimentation, agility, and innovation energy.
5	Strategic Innovation & Global Impact	Design scalable innovation strategies that deliver measurable outcomes and social value.
6	World Leaders Innovation Project	Present a live innovation initiative applied within your organisation, sector, or start-up.

6. Learning Experience

- Six innovation masterclasses (live online and recorded)
- Innovation Labs with group challenges and simulations
- Guest Masterclasses from global innovators and transformation leaders
- 1-to-1 Mentorship (Premier Track) with Dr & Professor Marwaha
- World Leaders Innovation Toolkit (frameworks, templates, and design models)
- Access to Global Case Studies across industries
- Certificate of Completion by KM International Consulting Ltd
- World Leaders Alumni Membership for lifetime global networking

7. Programme Format
